The food served at the lodge is an amalgam of local flavours, a few Indian favourites and a selection of International fare. The menu offers various choices to tickle the taste buds and the team is more than happy to cater to the needs of our young guests by providing multi-cuisine dining including Indian, Continental and local cuisine.
About Tadoba National Park
About Tadoba National Park

Tadoba Tiger Reserve is Maharashtra's largest National Park with one of the highest densities of tigers in the country. A dry deciduous forest with beautiful topography, Nearly 300 species of birds are found in this region and offers some of the best sightings of tigers, wild dogs, leopards, and others are seen frequently. The jungle and areas surrounding the Lodge are excellent terrains for birding and walking safaris.

Herbivores include the gigantic gaur, sambar, Nil Gai or blue bull, spotted deer, Monkey etc. Some other interesting mammals are the jackal, fox, jungle cat and hares. The large water body in the park have crocodiles which can be seen basking on the banks.

Teak is the dominant species of tree along with Mahua, Tendu, Flame of the forest, Golden Shower and Bamboo. The thickets of trees are interspersed with large grasslands and lakes which make for a very interesting landscape.

- Asian Brown Flycatcher
- Black-Naped Flycatcher
- Blue Winged Leaf Bird
- Common Iora
- Golden-Fronted Leaf Bird
- Grey-Breasted Prinia
- Jungle Babbler
- Jungle Prina
- Paradise Flycatcher
- Puff Throated Babbler
- Red Vented Bulbul
- Tawny Bellied Babbler
- White Browed Scimitar Babbler
- White-Browed Fantail Flycatcher
- Yellow Eyed Babbler
- Zitting Cist Cola

Tadoba Lake is the only home left for Marsh Crocodile in Maharashtra. This lake is also an ornithologist’s paradise where raptors, water birds including some rare bird species are also observed. Tadoba Lake sustains the marsh crocodile, which were once common all over Maharashtra. Raptors found in this reserve include changeable hawk-eagle, crested serpent eagle and grey-headed fish eagle.
Weather

The region is warm and sunny almost round the year. In winter the coldest months are between mid December to the end of January with early morning and night temperatures falling to 5 to 10 degrees Centigrade. The days are sunny and pleasant even in winter. The summer is very warm with the hottest months being April to June where midday temperatures go over 40 C routinely.

Best Time to visit

October to March is the most comfortable time to visit. This is just after the monsoon when the waterholes are brimming and the jungle is lush green. The migratory birds arrive in Central India and the animals look well fed and have their winter fur on.

April to June, is warm but as the grasses and leaves dry up the visibility for photographers improves and waterholes become hot spots for animal activity. However, chances of animal sightings remain the same round the year.

Lodge Opening and Closure. The Lodge will be officially open to receive guests from the 1st of November 2015. Each year the lodge will be closed during July and August for the monsoon and maintenance.
